Dear Sir:

In response to your inquiry about listeners' preferences, let me enter a request for more - much more! - classical music. The popular music you play in the afternoons offers material of a kind amply to be found on other stations; surely it does not fulfill your claim to be "a cultural oasis" in FM programming. Too often in the past the presentation of Yale sports events has cut in heavily into the early evening music; although I am a member of the Yale community - a graduate student in English - I would certainly have preferred it if these broadcasts had been confined to AM. Perhaps the FCC requirements of separate programming will improve matters this Fall. Let me close by saying I enjoy your stereo sound, and enjoy Classics by Request - and would only plead for more serious music - the Bach Cantatas, e.g. Sincerely, Peter Manning
